Item	Price
ParaMagic-REST plugin for MagicDraw – Floating License	US \$9,000
ParaMagic-CREATE plugin for MagicDraw – Floating License	US \$5,000

Product Features

Product	Features
ParaMagic REST Plug-in	<p>The ParaMagic-REST plugin (PMR) provides an interface to connect and query any external modeling and simulation (M&S) environment that has a REST-based interface, directly from the SysML modeling environment. It allows system engineers</p> <ul style="list-style-type: none">• to formulate REST-based queries to perform create, read, update, and delete operations from the SysML modeling environment to the external M&S environment• to map the results of the queries (JSON) to various element types in SysML, such as blocks, requirements, and activities.• To extend these capabilities for a variety of environments, such as OpenMBEE, JIRA, GitHub, and Mathematica Cloud.
ParaMagic CREATE Plug-in	<p>The ParaMagic-CREATE plugin (PMC) provides capabilities for rapid creation of SysML parametric models by enabling the following use cases:</p> <ul style="list-style-type: none">• creation of parametric relationship patterns using SysML Association Blocks,• application of patterns to a binding connector between part properties• automatic generation of detailed parametric relationships.

All products come with one year Maintenance and Support.
